Consensus SQG.PDF  
Recreational RSL\_mckean080815\_V2.xlsx

Kristen,

We are compiling these into a table for lab procurement and SAP purposes. Would that be more helpful?

Jan

**Subject:** Animas response

Hi Jan,

I'm working with Marty and many others here on the Animas response. I understand you were involved in looking at the historical values early in the response. We need to know the average values of historical surface water data for the complete analyte list, both total and dissolved. Can you get us those values ASAP?

Also, can you please share with Kristen the eco values you have been working on for Dan Wall?

Thanks.
